Ask yourself, when looking to add a virtual tour component to your business does it do the following:	OTHER VIRTUAL TOUR COMPANIES	TOURVUE	ANSWER
360 panoramic?	✓	✓	Our professionally trained photographers have the technology available to take some of the most seamless 360 degree photography on the web today
In flash?	✗	✓	Flash technology is accessible by 99.9% of all PC and MAC users. Most tour companies today are using a dated technology called JAVA, which will eliminate at least 20% of your viewing audience right off the bat!
Full screen?	✗	✓	Not just full screen, but automatically re-sizes to fit the FULL screen of any monitor you are viewing on...with no resolution dissipation.
High definition virtual tour?	✗	✓	High Definition means your visitors see the best quality, largest size and clearest picture possible for web viewing**
Does the virtual tour load fast?	✗	✓	We have made every effort possible to ensure that the smallest file sizes are being utilized for the application. This means that users get an almost instantaneous load time from the platform.*
Where all other Virtual Tour companies end and TourVue keeps going:	OTHER VIRTUAL TOUR COMPANIES	TOURVUE	ANSWER
Music?	✗	✓	Create a memorable experience and set the tone for your visitors by uploading sound clips to your tour
Audio/narration?	✗	✓	Explain the details through narration or even better upload your current radio ads for a completely branded experience
Linkable hot spots?	✗	✓	Linkable Hot Spots help to join rooms/areas together for a much more fluid experience - the true property walk through
Video hot spots?	✗	✓	The ability to link directly to video within the system. No need to pop off to YouTube or any other video source.

	OTHER VIRTUAL TOUR COMPANIES	TOURVUE	ANSWER
